*Cool, yes we are.*

# BLUBAR

- With manual mechanical taps.
- 2 supply options: cold still water and cold sparkling water, or cold still water and room temperature water.
- Entirely made in stainless steel, with front panel in backlit plexi.
- Internal storage space for filtration cartridges and inlet UV.
- Professional carbonator in stainless steel.
- Double cooling-coil, one for cold still water the other for sparkling (optional for the 80lt/h versions).
- Well insulated ice-bank for high volume supply of cold, still and sparkling water.

*Floor standing*

35,5 cm

32 cm

*counter top*

Optional extras:

- Activated carbon filtration
- Inlet UV
- UV out (I.T. version)
- Portion Control (I.T. version)

## BLUBAR - Technical Data

	Dimensions WxDxH (mm)	Net weight (kg)	Dispensing area (height mm)	fizz	GAS R290	portion control	energy saving	UV out	Cooling technology
BLUBAR 30 "beer" tap	318x576x537	24 (26 Fizz)	328	Op.	●				DRY COOLING
BLUBAR 80 "beer" tap	360x565x566	33 (35 Fizz)	320	Op.	●				ICE BANK
BLUBAR 150 "beer" tap	460x626x616	43 (46 Fizz)	329	Op.	●				ICE BANK
BLUBAR 80 I.T.	360x565x502	30 (33 Fizz)	328	Op.	●	Op.	●	Op.	ICE BANK

**R290**  
**NATURAL GAS**  
 zero impact on global warming  
**FIRST ON THE MARKET**

**GAS R290**

**Natural refrigerant gases**

With totally natural refrigerants (HC) such as R290. An ecological choice, with the added advantage of a more silent compressor and ensuring a longer life to entire refrigerant apparatus.

**BLUBAR "Beer" Tap 30**

Compact and efficient, thanks to the Dry Cooling technology, Blubar is Blupura's water-cooler specifically tailored for smaller catering spaces, bars, kiosks and office kitchens. Blubar 30 is the perfect solution for public spaces where traditional tapping is the preferred choice.

**Dry Cooling**

This is an innovative direct cooling technology with the serpentine water coils (stainless steel) and the refrigerant gas coils (copper) housed within a single aluminium cast. The Dry Cooling system guarantees reduced dimensions but with professional cooling performance, perfect for the needs of home and office consumption.

**stainless STEEL**

**portion control**

**BLUBAR I.T.**

With stainless steel buttons for a more professional supply of water with the option of "portion control", that allows the customization of doses for a fast convenient service

**BLUBAR "Beer" Tap**

Its practical mechanical taps let you fill two bottles at the same time!

**energy saving**

**Energy Saving**

The optional stand-by function will reduce power consumption by 75% in comparison to that of full operating power. Making for enormous savings whilst maintaining the temperature at a low enough level to impede the proliferation of bacteria.

**Ice Bank**

Icebank is the highest performing professional cooling technology, an absolute necessity in any hospitality situations where large quantities of cold water are required. This is obtained through immersion of the serpentine water coils for the water and refrigerant gas being immersed in an ice bank.

**ICE BANK**

## Accessories

### Bottle-washing basket

The universal basket for professional catering dishwashers. Maximum capacity: 25 bottles.  
 Max diameter: 8.7 cm.  
 Dimensions WxDxH (mm)  
 Cover: 500x500x24  
 Basket: 500x500x308  
 Trolley: 543x543x203

### Water bottles

Space\* for own logo or message.

Sport Bottle 60 cl. Inox Bottle 50 cl. Style Bottle 75 cl. Click Bottle 100-50-25 cl.

### UV filtration in line (12W)

In line UV light (installed outside).

### Sanitizing products

Sanitizing and cleaning products for the plants.

### Active carbon filters

Purifies the water making it crystal-clear, removing odour and taste impurities. It totally eradicates any impurity with a size of 0.5 microns, eliminates all odours and unwanted tastes such as chlorine, asbestos fibres and number of microorganisms including crypto-sporidium.

- Everpure 4C (capacity 11.000 lt.).
- Everpure AC (capacity 2.800 lt.).

### UVC lamp at exit (4W)

A UV light at the end of every tap. As demonstrated by numerous studies, UV light acts as a strong steriliser therefore preventing the growth of bacteria.

### Nano Silver pipe

Stainless steel tube AISI 316L with an innovative nanotechnology-based SILVER ion treatment on the surface. Silver is naturally bacterio-static and so reduces bacterial growth in the pipe. The surface treated with these nano particles is much more compact and smooth: this prevents the formation of deposits, biofilm or bacterial colonies and because the water flows better through the tube, also reduces dripping at the end of dispensing.

### Pressure reducers

CO<sub>2</sub> pressure reducer for refillable or single-use cylinder, water block, water pressure reducer.
